

Responsible Disclosure

At the Udens College, we consider the security of our systems a top priority. But no matter how much effort we put into system security, there can still be vulnerabilities present.

If you discover a vulnerability, we would like to know about it so we can take steps to address it as quickly as possible. We would like to ask you to help us better protect our clients and our systems.

Please do the following:

- E-mail your findings to cert@udenscollege.nl, encrypt your findings using our PGP key* to prevent this critical information from falling into the wrong hands;
- Do not take advantage of the vulnerability or problem you have discovered, for example by downloading more data than necessary to demonstrate the vulnerability or deleting or modifying other people's data;
- Do not reveal the problem to others and remove all gathered data when the issue is resolved;
- Do not use attacks with the risk of unavailability or interruption of systems;
- Do provide sufficient information to reproduce the problem, so we will be able to resolve it as quickly as possible. Usually, the IP address or the URL of the affected system and a description of the vulnerability will be sufficient, but complex vulnerabilities may require further explanation.

What we promise:

- We will respond to your report within 1 business days with our evaluation of the report and an expected resolution date;
- If you have followed the instructions above, we will not take any legal action against you in regard to the report;
- We will handle your report with strict confidentiality, and not pass on your personal details to third parties without your permission;
- We will keep you informed of the progress towards resolving the problem;
- In the public information concerning the problem reported, we will give your name as the discoverer of the problem (unless you desire otherwise);
- As a token of our gratitude for your assistance, we offer a reward for every report of a security problem that was not yet known to us. The amount of the reward will be determined based on the severity of the leak and the quality of the report, for example a cake;
- We strive to resolve all problems as quickly as possible.

* the PGP key can be found at: <https://www.udenscollege.nl/cert-pgp-key.zip>
